

NON-AQUEOUS CLEANING FLUID

IPOL CLEANING OIL 3045

Description :

All micro-finished parts after manufacture need to be surface-cleaned, before these form a part of the subassemblies, or are treated with a rust preventive to ultimately pack them for the marketing.

Ferrous and non-ferrous metal components are usually cleaned by non-aqueous cleaning fluids. The use of water based fluids is avoided because of the possibility of rusting.

Salient Features :

IPOL CLEANING OIL 3045 is an aliphatic hydrocarbon based fluid with appropriate type of detergent incorporated to facilitate effective cleaning.

it is covered under '**Non-dangerous**' petroleum products category.

Application :

The product need to be used with sufficient ventilation and care should be taken to avoid any open sparks in the area of use.

Benefits :

- Higher cleaning ability
- Effectively removes oils and greases from metal surfaces.
- Helps to remove moisture from metallic surfaces.
- Bio-degradable and hence ecofriendly.

Typical Results :
