White Oils

WHITE OILS

Decolourised & odourless paraffinic base oils of suitable viscosities are commercially classified as Technical White Oils. These are manufactured from suitably selected paraffinic crudes devoid of aromaticity. Specific treatments are offered to remove any odour associated with petroleum based hydrocarbon fractions so as to make these suitable for use in various industries.

IPOL Technical White Oils are inert colorless fluids suitable for use as mould releasing agents, in the manufacture of antistatic oils, petroleum jellies and *aggarbatties*, as insulants, as defrothing agents in vinegars, etc. Their multiplicity of end uses makes them products of versatile usage.

Typical Inspections				
Characteristics	Test Methods	White Oil 12	White Oil 18	White Oil 32
Colour ASTM	ASTM D 1500	0.0	0.0	0.0
Specific Gravity at 30° C	ASTM D 1298	0.822	0.827	0.830
Flash Point °C COC	ASTM D 92	182	200	220
Pour Point °C	ASTM D 97	-24	-18	-18
Kinematic Viscosity at 40° C cSt	ASTM D 445	11.8	22.7	30.0
Viscosity at 40° C cps	ASTM D 445	9.6	18.6	24.7
